MYO THANDAR

Full-Stack MERN Developer | CSE Undergraduate

Vadodara, Gujarat, India | +91 8141194328 | assumptamyo@gmail.com

Portfolio: myothandar.vercel.app | github.com/assumptamyo | linkedin.com/in/assumptamyo

PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate and full-stack MERN developer. During a 3-month internship, built production features for Unfazed, a SaaS platform for therapists, including personalized booking pages, a client CRM, real-time chat with Socket.IO, OTP authentication and Razorpay payments. Published research on a localized e-learning platform in IJRTI. Comfortable across the stack, from REST APIs and MongoDB data models to responsive React interfaces, with a foundation in algorithms, AI/ML and data science.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering — Expected May 2027

Parul University, Vadodara, India | CGPA: 8.01 / 10.0

High School (10th Standard) — 2016

Myanmar

TECHNICAL SKILLS

Languages	JavaScript (primary), Python, Java, C++, C#
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite
Backend	Node.js, Express.js, Socket.IO, RESTful APIs
Databases & Tools	MongoDB, MongoDB Atlas, Mongoose, Git, GitHub, Postman, Vercel, Render, VS Code
Concepts	Authentication (bcrypt, OTP), real-time communication, payment integration (Razorpay), third-party APIs, responsive design
Foundations	Data structures and algorithms, problem-solving, AI/ML, data science

PROFESSIONAL EXPERIENCE

Junior Web Developer (Intern) — July 2026 – September 2026

Unlox Company (Job Bridge Program) – Unfazed, SaaS platform for therapists

- Built personalized therapist booking pages where clients view a therapist's profile and book appointments from their available slots.
- Developed a client CRM and a real-time chat module using Socket.IO, connecting therapists and clients instantly.
- Implemented secure authentication with bcrypt password hashing and OTP verification.
- Integrated Razorpay payment workflows and third-party APIs, and built real-time dashboards for appointments and availability.
- Delivered production features on a MERN codebase (React.js, Node.js/Express.js REST APIs, MongoDB) as part of the Job Bridge initiative.

KEY PROJECTS

1. Unfazed – SaaS Platform for Therapists — Live Demo | GitHub

Tech stack: MongoDB, Express.js, React.js, Node.js (MERN), Socket.IO, bcrypt, Razorpay

- Production SaaS platform built during my Unlox internship (see Professional Experience): therapists get personalized booking pages, a client CRM and real-time chat.
- React.js front end with Node.js/Express.js REST APIs and MongoDB, secured with bcrypt hashing and OTP verification.

2. OfficeEase – Localized E-Learning Platform

Tech stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Designed and developed a localized e-learning platform teaching Microsoft Word, Excel and PowerPoint to students in Myanmar with limited access to courses.
- Converted traditional book-based curricula into compact, sequential digital lessons to improve learner retention.
- Published as a research paper in the International Journal for Research Trends and Innovation (IJRTI).

3. Don Coffee Shop – E-Commerce Web Application Live Demo | GitHub

Tech stack: MongoDB, Express.js, React.js, Node.js (MERN)

- Built a full-stack e-commerce application for a coffee shop, covering menu management and product sales.
- Added an interactive customer feedback section with comments and dynamic like/react buttons.

4. Personal Portfolio – Full-Stack MERN Website Live Demo | GitHub

Tech stack: React.js (Vite), Node.js, Express.js, MongoDB Atlas, Resend

- Built a portfolio whose projects, skills and certifications are served from a REST API backed by MongoDB Atlas.
- Contact form saves messages to the database and emails them via Resend, with spam protection; frontend on Vercel, API on Render.

Other projects: Weather App, Movie Finder, To-Do List App – **github.com/assumptamyo**

PUBLICATION

- "Development of a Localized E-Learning Platform for Microsoft Office Tool", *International Journal for Research Trends and Innovation (IJRTI)*, Volume 11, Issue 9, September 2026. Paper ID: IJRTI2609454. Co-authors: Masengo Kinda, Soe Myint, Thu Wai Aung, Nidhi Pandey.

CERTIFICATIONS & ACHIEVEMENTS

- **Winning Team Member – Hult Prize OnCampus Program 2023–2024**, Parul University (February 2024).
- **Unlox Edge Certification in Web Development** (Job Bridge Program), Unlox – October 2026. Credential ID: UNXWD-2026-8177.
- **Certificate of Internship Completion** – Internship & Project-based Learning Program in Web Development, Unlox in collaboration with Outpro India – October 2026. Credential ID: UNXWD-INT-8177.
- **Participant – Web Wizards**, Projections (Annual Technical Festival of Parul University, Gujarat's largest technical festival) – February 2024.

LANGUAGES

Burmese – Native **English** – Professional working proficiency **German** – A1 (Beginner)
